THE WORLD IS THE REAL SCHOOL

THINK
Thinking begins when we stop following and start seeing. The world environment shows everything - both truth and deception. To think is to look at what is in front of us, without being told what to believe, and to use our own mind to connect what is real. Independent thought is the first step towards changing the world.

THINK
Thinking begins when we stop following and start seeing.

QUESTION
Without questions, nothing improves. Everything in the world environment must be questioned - what is said, what is done, and what is hidden. Questions break apart lies and allow truth to be seen. A world that does not question simply repeats itself. A world that questions can evolve.

QUESTION
Without questioning, nothing improves.

LEARN
Learning is more than memorising. Real learning comes from evidence, from observing what happens in the world environment, and from understanding the causes behind it. Every action, good or bad, is a lesson. When we learn from these lessons, we gain the ability to improve ourselves and the world around us.

LEARN
Learning is more than memorising.

TEACH
Teaching is not control - it is passing on truth so that others can see, think, and
